

## ORKA 250

### SUPERLATIVE HOMELIFT FOR YOUR HOME

#### STYLE ICON

##### Elegance and style

Orka 250 Lift represents the homelift with a refined and elegant design. Thanks to its unique style it is suitable for any context, from classic to modern, contributing to the enhancement of every kind of environment.

##### Furnishing accessory

Orka 250 Lift is the domestic lift brought to its highest level. From a functional object to part of the new living idea. The Italian interior design can now count on the Orka 250 Series Lift.

##### Made in Italy

Design doesn't just mean minimalism. It can have a strong or peaceful character, it can be histrionic or tactful but the Italian passion will always beat in its heart.

#### INNOVATION ICON

##### Exclusive design

Unique in design, Orka 250 Lift offers lines and angles of continuous light without any interruption, creating the perfect harmony between wall and ceiling.

##### Touch Screen

Just touch the Touch Screen or your smartphone to move in comfort and silence thanks to the safe, reliable, ecological oil-free electric motorization.

#### BEAUTY ICON

##### Functional beauty

The essential beauty of Orka 250 Lift is given by the elements arranged in a sober, functional and intuitive way. The simplicity of use, safety at the highest level and the search for beauty represent the concept of a true Elevation Icon.

##### Environments

The cosmopolitan design has awesome shapes and colors. The large standard glazed walls, doors and continuous glass structure allows its integration in any environment.

##### Full Optional

Orka 250 Lift offers everything included: automatic doors, electric and silent traction, touch screen, dedicated APP for smartphones, design LED lighting. You just have to choose between the finishes we have

##### Materials

Every detail has been thoroughly studied by our designers. Ceiling and the wall have the same material to give aesthetic continuity. They have been carefully selected to be placed in your home: Orka 250 Lift will amaze you.
